# **OUTPUT**

### Responsibility

### **GOVERNANCE**

• B Corp Tracker: 80 points

### Collaboration

### STAFF

- Employee satisfaction: 'good' (2020 survey)
- Employee benefits: inspiring new workspace, air quality, plants, HIIT vitality program, vegan-friendly lunch, fruitful office
- CSR engagement activity
- Sickness absence: 0.5% (Amsterdam office)
- Turnover rate: 9% (Amsterdam office)

### **BUSINESS**

- Green products: 3%
- Code of Conduct
- Pilot: Cooperation with platform to calculate, share and improve our climate footprint of products.

### **STRATEGIC CSR PARTNERS**

• Participation in CO<sub>2</sub>e reduction and compensation programmes

### COMMUNITY

- Food bank
- Recognized training/internship company
- Participation in microcredit programmes

### Transition

### **ENVIRONMENT**

- Scope 1 and 2 has been calculated. Conclusion Amsterdam Office is a carbon neutral organization
- 5,972 MT MT CO<sub>2</sub>e compensated via FairClimateFund
- 1,429 MT CO<sub>2</sub>e reduction via GoodShipping

### Amsterdam building:

• Sustainable office and furniture: green wall, fruit, UTZ certified coffee, cleaning products, etc.

# Meelunie Sustainability Ambition Statement 2020-2021

# As of October 2020

'Positive impact' has been incorporated into our mission, vision, ambitions and strategy. In the years to come it will be an integral part of our daily activities: Positive Impact will drive our performance and set the scope for our growth, financial returns and the evolution of our portfolio. In this, we'll be guided by B Corp and aligned with the UN SDGs. We'll work with and seek partners who share our positive impact ambitions.

We've set down three domains in which we want to make a positive impact:

*We continue our mission to create* 'Plant Based Positive Impact'. Our fava proteins factory in Denmark is a wonderful example, where sustainability is fully integrated in our business model. We are excited to be contributing to a better tomorrow.

Marco Heering, CEO Meelunie

# **1. Green Products**

### **Our ambition**

We now place special emphasis on the Organic & Health segment. We offer a growing assortment of organically certified, sustainably-produced products. Supporting regional cultivation and processing of plant-based proteins is part of our ambition for a greener supply chain.

We will continue to pursue organic opportunities and other certifications associated with responsible sourcing, and invest in new business development. In 2030 our product portfolio will be 100% responsible.

### Achievements 2020-2021

- Selection partner CarbonCloud;
- Increase transparency 'plant-based' on packaging;
- Pilot LCA calculations for wet milled fava beans;
- Live up to our purpose 'Plant Based Positive Impact' by cooperating with partner in Croatia for distribution of fava bean products;
- An agreement on building a sustainable fava bean processing site in Denmark;
- Kick-off of the project Co-Fresh with partner Food Valley and other organizations for fava bean to meat analogue. With this project, we intensify collaboration with chain partners; from farmers to Louis Bolk Institute etc.
- The extensive research with GoodFuels on the use of fava bean hulls for biogas ended in the conclusion that it is not applicable. We will continue to closely monitor developments in that area.

### Next steps

- Strategy development Green products;
- Invest in solutions for protein concentrate to make it better suitable for food applications;
- We have collected the prove for our business case with CarbonCloud and start communicating the CO<sub>2</sub>e footprint fava bean processing on packaging;
- In 2023 we will start stimulating our partners to join the CarbonCloud platform.

- other chains;
- Renewal partnerships GoodShipping & FairClimateFund; • Feasibility study for a new offsetting project in Laos (Tapioca farmer community) with partners FairClimateFund, SNV and Oxfam Novib;

### Next steps

- CO<sub>2</sub>e calculator;
- Start with CO<sub>2</sub>e footprint awareness of customers and suppliers on transportation & distribution.

# meelunie

# 2. Climate and Shipping

### **Our ambition**

Step up our ambitions even further regarding the reduction of our CO<sub>2</sub>e footprint, improving our energy efficiency and increasing our use of biofuels. We also aim to support customers with insights into the CO<sub>2</sub>e footprint of their order. By 2030, all our lanes (shipments) to be CO<sub>2</sub>e neutral.

### Achievements 2020-2021

• Calculating scope 1, 2, 3;

- Research CO<sub>2</sub>e footprint of Tapioca chain, as blueprint for
- Develop a CO<sub>2</sub>e strategy;
- Familiarizing with the offsetting market;
- Meelunie Amsterdam office is a carbon neutral organization

- CO<sub>2</sub>e accountability for Meelunie Group in 2022;
- Implement a new CO, e calculator in our ERP system.
- This tool calculates not only CO<sub>2</sub>e emissions from our sea freight but also other forms of transportation;
- Train our colleagues from Commerce in using new

# 3. Green from the Inside

### Our ambition

Shift towards a 100% positiveimpact mindset from everyone in the company (company-wide). Remain focused on operational excellence and further 'greening up' our business processes. A commitment to give back to communities through a number of local, national and

international initiatives. Our ambitions are captured in three themes: Collaboration, Transition and Responsibility.

### Achievements 2020-2021

- 80 points in B Corp tracker, apply for B Corp certification;
- Support to several public organizations such as Oxfam Novib, Cafe del Mar, Life Skills Amsterdam, WOMAG Asia, Food Bank Amsterdam;
- CSR internship;
- Develop whistle blower policy;
- Registration purpose Plant Based Positive Impact;
- Internal CSR communications a.o. video 'Doe maar duurzaam' and all staff end of year presentation by board of directors.

### Next steps

- Further collect documents for B Corp certification;
- Audit B Corp;
- Roll out business travel policy;
- CSR in job description, job offers, training and workshops;
- Align and engage Meelunie offices in CSR activities.

### Meelunie Positive Impact Programme

partners who share our ambition to have the

### 2017

guest speaker on sustainability.

### 2018

### 2019

Start of FCF partner project.

### 2020

- - Created first CRS report.

### 2021

- Building a sustainable fava proteins factory in Denmark;
- Increased B Corp score in self-assessment;
- Defined CO<sub>2</sub>e neutrality strategy for 2030.

# Meelunie's CO, e Emissions Accountability 2020-2021

# **Definition of** Meelunie's CO<sub>2</sub>e neutrality

### **BUSINESS OPERATIONS**

These scopes determine Meelunie's CO<sub>2</sub>e neutrality because we have a direct influence on them.

**GREEN FROM THE INSIDE** 

**CLIMATE & SHIPPING (WAREHOUSING)** 

### **PRODUCT PORTFOLIO**

The total of these emissions will be shared with our customers to improve awareness of CO<sub>2</sub>e emissions.

**GREEN PRODUCTS** 

**CLIMATE & SHIPPING (WAREHOUSING)** 

**CLIMATE & SHIPPING (TRANSPORTATION AND DISTRIBUTION)** 

Our next steps towards a CO<sub>2</sub>e neutral supply chain are shown in the Meelunie Sustainability Ambition Statement.

**SCOPE 3 PURCHASED GOODS** Cultivation and production of goods purchased. Q COLICES **SCOPE 2** We have made a start with an LCA pilot. **SCOPE 1** 睮 COMPANY FACILITIES Emissions from operations that are owned or controlled by Meelunie. 37 MT CO<sub>2</sub>e **COMPANY VEHICLES** Emissions from vehicles that are owned or controlled by Meelunie. Petrol vehicles: 22 MT CO,e PURCHASED ELECTRICITY FOR OWN USE Emissions from the generations of purchase elected and the generations of purchase e/ectricity, steam, heating or cooling. Offices and electric vehicles: 75 MT CO 2 Green from the Inside

**OFFICE SUPPLIES** Water and paper used, and waste generated in operations.

4 MT CO<sub>2</sub>e

**BUSINESS TRAVEL** Transportation of employees for business-related activities.

# XXX meelunie

### **TRANSPORTATION AND DISTRIBUTION** Transportation and distribution of products purchased

from tier 1 suppliers and sold to tier 1 customers.

103,748.0 MT CO<sub>2</sub>e from sea freight shipments. Of which, 3,498.8 MT CO<sub>2</sub>e on our Rotterdam to Shanghai trade lane. 650 MT CO, e from intra-Europe road transportation. Sulddug

### WAREHOUSING

Warehousing and storage of products including inbound and outbound logistics.

90.9 MT CO<sub>2</sub>e

### Greenhouse Gas Protocol

Our CO<sub>2</sub>e strategy is based on the Greenhouse Gas Protocol Corporate Accounting and Reporting Standard, and is aligned with SDG 13: Climate Action. According to this standard, companies are required to account for and report all direct emissions - scope 1 and 2.

We also feel partly responsible for the scope 3 emissions in our value chain, both upstream and downstream, even though these scope 3 emissions are the scope 1 and 2 of other companies.

### Disclaimer

The calculation of Green from the Inside's CO<sub>2</sub>e emissions are officially validated by PW Advies. The emissions of Green Products and Climate & Shipping are not officially validated by an external party but based on data from the Clean Cargo Working Group, Fraunhofer IML, CarbonCloud, CO<sub>2</sub>emissiefactoren.nl, Ecotransit.org and GHGProtocal.org. These emissions are calculated in CO<sub>2</sub> equivalent (abbreviated as CO, e), which is a metric measure used to compare the emissions from various greenhouse gases.

# **CONCLUSION**

The total amount of emissions of the business operations – scope 1, 2 and partly 3 - is 319 MT CO<sub>2</sub>e. Meelunie has reduced and compensated 7,401 MT CO<sub>2</sub>e. This makes Meelunie a carbon neutral organization. Our Green from the Inside's emissions are shown per office on the next page. Meelunie also compensates a part of scope 3 through its Rotterdam to Shanghai trade lane (3,499 MT CO<sub>2</sub>e).

**EMPLOYEE COMMUTING** Transportation of employees between their homes and worksites.

| Nett emissions (mt CO <sub>2</sub> e) | 81,1  | 114,4 | 14,4 | 11,6 |  |

All data is rounded to one decimal, meaning 0 mt  $CO_2e$  is less than 0.5 mt  $CO_2e$ .

Our next steps in CO<sub>2</sub>e reduction are shown in the Meelunie Sustainability Ambition Statement.

*We see a carbon-neutral Detroit office as a first step to having a positive impact.* Our ambition is to create awareness about carbon emissions amongst our US-based customers and be a sustainable frontrunner in the US market.  ${m V}$ 

Jan van Vilsteren, General Manager Meelunie America

# **Continuous Improvements by Meelunie** 2020-2021

# Frontrunner

When it comes to making our supply chain more sustainable, we want to remain a frontrunner by continuously improving our CO<sub>2</sub>e emissions. This helps our company lead the transition to a sustainable, plant-based future, based on Meelunie's 'Plant Based Positive Impact' mission, with its ambition to trade and produce in climate-neutral plant-based ingredients, and to ship these products to our customers by climate-neutral transportation means. An example of this is our climate-friendly fava proteins factory, which will open in 2022.

*I* The cooperation with Meelunie is unique in the sense that they are one of the first B2B food producers to use CarbonCloud for a factory that is not even operating yet. That Meelunie has approached us before building their fava proteins factory shows that they are a proactive climate optimizer and, in my opinion, makes them a genuine frontrunner in the B2B food industry. 🎵

David Bryngelsson, CEO CarbonCloud

It is great to see Meelunie taking the necessary steps to not only compensate but also reduce their CO, e emissions, setting an example in their industry. We are proud to act as a strategic CSR partner to help decarbonize their ocean freight and work together towards the goal of 100% CO<sub>2</sub>e reduction of their shipments by 2030. We are glad to enable global players like Meelunie to choose carbon insetting, reducing CO<sub>2</sub>e where it matters most: in their own supply chain. 🖊

We calculate and monitor our CO<sub>2</sub>e footprint on established scopes.

### Communicating

We communicate internally and externally with our stakeholders about our progress.

•••

11111

### Developing

We develop CO<sub>2</sub>e strategies, set targets and create roadmaps.

Our next steps in continuous improvements are shown in the Meelunie Sustainability Ambition Statement.
